DD/S&T recalled that he had been invited to sit in on DIA briefings of Dr. Foster and that he attended the first such briefing yesterday.

DD/S&T briefed on his session with Paul Nitze yesterday and commented that any earlier information that Mr. Nitze had some problem with the Memorandum to Holders of NIE 11-8 was simply not true, since he did not read the paper until yesterday. His interest was to discuss the SALT talks. Upon reading the Memorandum to Holders, he commented that it gave him no problem and that he now understands the issues.

Executive Director noted that we appear to be over the hump on the RDC problem, thanks to the efforts of OGC and others. He added, however, that there may be some slight slippage in fully meeting the 1 July deadline. Executive Director briefed on the funding arrangements and commented that we may now examine SWITCHBACK in detail so as to avoid the Director's being in the position of facilitating passage of funds but being unable to audit same.

Executive Director noted that next Monday is the last day of the fiscal year and asked that all candidates for year-end funding be placed on his desk hopefully by the close of business today. In response to General Cushman's question Executive Director briefed on our obligation procedures, and General Cushman noted that they are quite different from those he was acquainted with in his DOD experience.
